Tom Purciel
Associate Planner
County of El Dorado
Department of Planning and Building
2850 Fairlane Court
Placerville, CA 95667

Mr. Purciel,

I am writing concerning the property at 3051 Cayente Way in Cameron Park, CA. We conducted a biological assessment of the site and can confirm that if there is no construction planned in the wetland area, there is no further need to mitigate or address it.

As per our conversations with our client, the plans for the driveway are on the opposite side of the property, and thus the drainage ditch area will not impacted by any planned construction.

Please feel free to contact me or my associate (Chris Cox) with any questions / comments you have via email (bdbarnet@sbcglobal.net / coxter76@gmail.com) or phone at (916) 758-9235.

Sincerely,

Bruce D. Barnett, Ph.D.
